

BLAINE L. MERCADO

FULL STACK WEB DEVELOPER & IOS ENGINEER

www.blainemercado.com

PORTFOLIO

Ditty - <https://vimeo.com/188237697>

JavaScript | Angular | Node.js | MongoDB | Mongoose

A one-stop shop for all your favorite Music Festivals where you can learn about the artists, sample their music, and build a personal calendar for all the shows you want to see · Login and registration is encrypted using bcrypt with the option of using Facebook login

Groups - <https://vimeo.com/190775787>

Python | Django | SQLite3 | jQuery | Bootstrap

A social network site designed to encourage inclusive communities · Users can post messages on other user's profiles and comment on posted messages · Login and registration is encrypted using bcrypt

Clust 'r Bust - <https://vimeo.com/190788268>

Swift | SpriteKit | Socket.io | Node.js

A multi-player iPhone app under development · The goal is to score points by matching colored disks · You can earn a power-up which allows you to fling disks off your screen which is worth extra points

Pokémon Stay - <https://vimeo.com/190767922>

Python | Django | MySQL | jQuery | API

In response to the Pokémon Go craze this is a battle game where you stay at your computer and select a team of three Pokémon characters to battle against AI · As you level-up you gain access to stronger Pokémon to choose from for your team

Hint.e - <https://vimeo.com/190767922>

Swift | CoreData | AVPlayer | API

A social iPhone game like Taboo · Randomly generated movie titles will show on the screen and one player needs to get a teammate to guess the movie title without using any of the words in the title · AVPlayer provides in-game music and sound effects · Built entirely in a single-day hackathon
